

Kawasaki Robotics e-News

Kawasaki Robostage visitors reached to 80,000

Just before its 3rd anniversary, Kawasaki Robostage recorded 80,000 visitors. It was opened in Daiba, Tokyo in August 2016, as a robot showroom with the concept of "coexistence and cooperation between people and robots". We would like to thank everyone who supported our showroom until this date.

In order to offer our visitors more valuable and memorable experience, we opened a small store where visitors can purchase Kawasaki goods such as T-shirts, towels, and stickers. Kawasaki Robostage is the only place in the east side of Japan where you can see and touch the goods. Some goods are only available at this store. We look forward to your visit to Kawasaki Robostage.

* The goods' availability depends on the inventory status.

* Kawasaki goods are also available at Kawasaki World in Kobe, Hyogo. For more detail, please visit the website (<https://www.khi.co.jp/kawasakiworld/>).

Robot programming events for elementary school students started

On Saturdays and Sundays from July 20th until August 25th and from August 10th to 18th (except 13th), Kawasaki Robostage offers robot programming events for elementary school students. Please explore this opportunity for children's summer vacation memories. (This event is available only in Japanese.)

If you would like to participate, please check the following and register from the website.

■ Contents :

- [1] Robot simulation operation (for all graders)
- [2] Industrial robot operation (for 4-6th graders)
- [3] The Dual-Arm SCARA robot "duAro" programming (for those who completed [2])

■ **Qualifications** : Elementary school students (parental guidance required)

■ **Participation Fee** : Free of charge

■ **Registration** : Please make a reservation from the following website (<https://is.gd/qSDFm9>) (QR code at the top-right) after confirming your preferred date, time and program.

* Please note that we may take photos and videos during the event and that we may use them as marketing materials.
